THE BEST, BY DESIGN

Orotol® plus and MD 555 cleaner

For the extra-long life of your suction unit

Orotol® plus:

Disinfection of suction systems

Foam-free liquid concentrate for simultaneous disinfection, cleaning, deodorisation and care of all suction units and amalgam separators.

- Dissolves and disinfects bio-film and prevents the formation of sludge from blood and proteins
- Long-lasting effect - germ-resistance does not develop
- Certified material compatibility - recommended by leading equipment manufacturers

Tough on:

- Bacteria (inc. TB)
- Fungi
- Viruses (inc. HBV, HCV, HIV)

MD 555 cleaner:

Effective against hard-to-dissolve incrustations

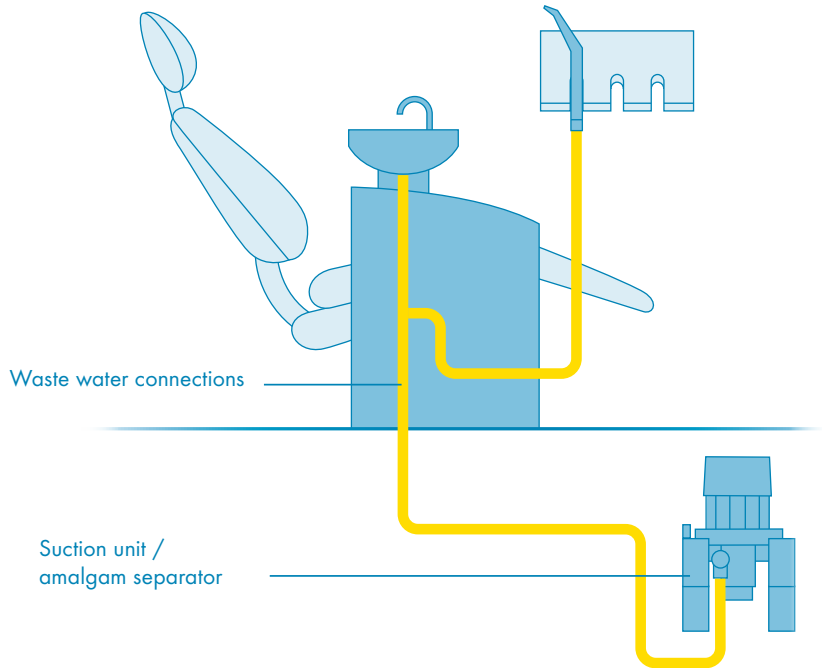

Foam-free cleaning concentrate for all kinds of suction units and amalgam separators. The improved formulation now dissolves stubborn incrustations from Prophy Pearl prophylaxis products even more effectively.

- Highly intensive cleaning effect against deposits and sludge
- Certified material compatibility - recommended by leading equipment manufacturers
- Ideal in combination with Orotol® plus

Tough on:

- Prophy Powder
- Prophylaxis pearl products
- Salts / carbonates
- Lime

Impact of Orotol® plus and MD 555 cleaner
